## COACHING FOUNDATIONS

### Overview

The Coaching Foundations course focuses on understanding what coaching is (and is not), and how it can apply for leaders and managers. In this course, students build key foundational coaching skills and are introduced to the GROW coaching model. Coaching Foundations blends theory and practice, with extra attention and time given to practicing coaching and receiving feedback. **It consists of six 2-hour workshop sessions and two 1-hour practice sessions**, where students put their learning into action. ## MANAGING HOSTILE INTERACTIONS

### Overview

Managing Hostile Interactions training equips library staff with practical tools to navigate difficult situations safely and respectfully. In this webinar-workshop hybrid program, participants learn proven strategies for de-escalation that increase the likelihood of a constructive resolution for everyone. As a participant, you will gain an understanding on how to define hostility and examine its dynamics, identify factors that increase the potential of hostility, explore techniques to effectively confront and set limits on hostile behaviours to enhance personal safety. This training meets WorkSafe BC regulatory training requirements. [Learn more.](#)
